Centre Bavšica

UIAA
Global Youth Summit 2008

- **Description of the place and area:**

Our education centre has for many years been situated in the north-west part of the Slovenian mountains, in the beautiful valley called Bavšica. There we built a new house »Planinsko učno središče Bavšica« (Mountaineering education centre Bavšica) and on July 10th 1999 we inaugurated the centre. The entire centre is dedicated to mountain education courses and seminars. The lectures, dining and some other activities take place in the dining room and in two special rooms. Altogether there are 40 beds and bunks. The Mountaineering education centre Bavšica is also a great starting-point for shorter and longer hikes. We are also proud that in October 2003 the UIAA Youth Commission (YC) held its meeting here in our centre in Bavšica; and in 2004 and 2005 we had the UIAA YC camp "Safe mountain skills" there.
